abdullah.fareed90@icloud.com ✉

SUMMARY

Junior Python Programmer with 1 year and 4 months of coding experience, proficient in Python, C#, and HTML. Experienced in Python, .Net and MSSQL, with strong web designing skills.Currently enhancing expertise in Python and Data sciences, with practical knowledge in Cisco Packet Tracer and MSSQL databases.

EDUCATION

Bachelors-Computer Science
PAF Karachi Institute of Economics And Technology - PAF Airmen Academy,PAF Colony Korangi Creek

INTERMEDIATE
Dehli Govt. college

O LEVELS
Ladybird Grammar School (O/A levels)

SKILLS

- Strong organizational and time-management skills.
- Exceptional communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Mentored junior programmers, fostering their professional growth and enhancing team productivity.
- Able to handle multiple tasks simultaneously.
- Critical Resilience Thinking

CERTIFICATIONS

- Cybersecurity Tools & Cyberattacks
- Introduction to Artificial Intelligence (AI)
- Jewellery 3D modeller (Aptech)

PROFESSIONAL EXPERIENCE

Junior Python Programmer
Cosmic365.ai (Remote) | 2022 - 2023

- Developed and maintained Python-based applications.
- Collaborated with cross-functional teams to deliver end-to-end solutions.
- Python for backend development and integrating with frontend technologies for seamless user experiences.
- Played a key role in the design and implementation of new features and functionalities.
- Engaged in code reviews to ensure adherence to coding standards, best practices, and quality guidelines.

SQA, C# , Database , Networking (Cisco)

- Led end-to-end quality assurance efforts, including manual/automated testing and defect tracking using Selenium and JIRA, ensuring product reliability and compliance. Collaborated with cross-functional teams and mentored junior QA members to foster continuous improvement.
- Developed and maintained web applications using C# and MVC.NET framework, ensuring high performance and reliability.
- Designed and implemented scalable database schemas in MSSQL, supporting various project requirements and optimizing SQL queries for better performance.
- Conducted debugging and performance optimization for both C# applications and MSSQL databases, reducing load times and improving efficiency.
- Leveraged Cisco Packet Tracer for network simulation and configuration, enhancing project planning and execution.
- Collaborated with cross-functional teams to integrate C# applications with MSSQL databases, improving data management and accessibility.
